Back to School

our academic theme

Hello school! Welcome back students! Our theme for August is colors and shapes! Have you ever wondered why we always start with these basics? It's because colors and shapes are two very noticeable attributes of the world around us. When you look out your window, you may not be saying it ... but your mind is noticing and identifying the green trees, brown rectangle buildings, square windows, and blue sky. Colors and shapes are ways for children to observe and categorize what they see. These very recognizable characteristics that encourage children to define and organize the diverse world around them. Our children will be tasked with identifying, mixing and creating colors and appreciating shapes in everything around us! So let's have fun with our colorful and shapes-filled world!!!
