## Our academic theme

**Our children will soon be looking after our planet!** Children are the future generation; they are the future leaders and citizens of our planet. It is therefore vital that they develop an appreciation for the planet and a desire to protect it. It is up to us, as adults, to pass on our knowledge and sense of importance so that our children can continue to sustain a safe planet on which to live. We need to give our children a deep-rooted understanding, by teaching them from an early age, that being eco-friendly is not a chore but a duty.

## Special Activities!

As the school year comes to a close, so must we bid farewell to the KG class.
