# ACADEMIC THEME

*"When I grow up  
I want to be  
a Nurse!!!"*

Preschoolers/Kindergartners love to dress up and do what they see adults do! This month promises another fun topic - The Community and Community Workers. Our kids will be familiarized with the people working in our neighborhoods and how they actually can help all of us. We have prepared a load of fun-activities for our kids to have them appreciate and remember the immediate world around them - the community and the people who keep the wheels turning on a daily basis! People work in the country, people work in the town, people work day and night to make the world go round!

*It's April birthday*

# MEET THOSE WHO MAKE THE MAGIC HAPPEN AT SUNSHINE HOUSE

Another beloved educator at SHIK is another pretty face who is homeroom teacher to the PreKI class. She is also in charge of teaching MATH for our integrated curriculum students and COOKING for our international curriculum kids. This is none other than - Teacher LY!

by Ching Balo

20-year-old Marianne Teigen recently published her first young adult novel, and in only a month, it has reached the New York Times Bestsellers list.

A graduate of The National College for Education in Hanoi and specializing in Early Childhood Education, T. Ly responded to her calling from the beginning. She has been caring and educating our SHIK children from 2011 when Sunshine House doors opened to Hanoi.

T. Ly always manages to have the children enjoy every minute of their Math lessons and ensures that the children take away information and skills with them every time. Cooking class is also something our kids look forward to as T. Ly guides our little ones to create and produce yummy dishes.

Under T. Ly's tutelage the children engage in positive sensory experiences with a variety of healthy foods, they also learn some food preparation skills and identify personal food preferences. So if your kids suddenly want to help out in the kitchen or want to cook something up with you then that would be because of T. Ly!
